Basic functions: The cover built in low frequency water activator, the hydrogen-rich generator can be unscrewed and works with mineral bottles. Can be carried for outside use conveniently. This is also a portable hydrogen inhalation device. Working time: 6 minutes for daily use/20 minutes hydrogen concentration can be up to 3500-5000ppb, Nano-technology allows dissolved hydrogen in water be stored for about 10 hours! 7.8hz molecular high nano hydrogen water activator: 6 minutes Dimensions: 24GM X6.5CM Water capacacity: 250ML Bottle body: Food grade Thick PCTG Charging time: 180 mins: Working time: 60 mins Charging ovoltage: 5Y Charging current: 1A Charging port: waterproof TYPE-C Electrode: 7 layers of platinum electrode Membrane: DuPont N117 Black PEM The concentration of hydrogen: 3.5-5PPM RP: 850 TO-950 Color: Champagne gold, white Package box: 34cmx25cmx10cm 1. The product combines mret tech and nano hydrogen tech. The main function of the water changes the bood viscosity in 20 minutes, in	Model	Product Name	Photo	Specification	Item description	MOQ for OEM
	IH21	high nano hydrogen water smart cup with OLED drinking		water activator ,the hydrogen-rich generator can be unscrewed and works with mineral bottles. Can be carried for outside use conveniently. This is also a portable hydrogen inhalation device. Working time: 6 minutes for daily use/20 minutes for inhale hydrogen The working time of low frequency water activator: 6 minutes Dimensions: 24CM X6.5CM Water capacity: 250ML Bottle body: Food grade Thick PCTG Charging time:180 mins/ Working time:60 mins Charging voltage: 5V / Charging current: 1A Charging port: waterproof TYPE-C Electrode: 7 layers of platinum electrode Membrane: DuPont N117 Black PEM The concentration of hydrogen: 3.5-5PPM ORP:-850 TO -950 Color: Champagne gold, white	tech. The main function of the water changes the bood viscosity in 20 minutes, increase energy in daily drinking water, improve the human body environment, can help to cure chronic diseases, like as: hypertension, Hyperlipidemia, hyperglycemia, diabetes mellitus, etc. 2. The hydrogen concentration can be up to 3500-5000ppb, Nano-technology allows dissolved hydrogen in water to be stored for about 10 hours! 3. The portable hydrogen generator can be carried in anywhere, to achieve one machine with three modes! (Making hydrogen water with the cup as daily use, making hydrogen water with mineral bottles as outside use, can be used as a portable hydrogen inhaler in anywhere). 4. SPE Hydrogen and oxygen separation electrolysis tech. imported Dupont membrane, seven layers of platinum plating, effectively discharging ozone and residual chlorine from the L-line vent hole at the bottom of the base in the process of the electrolysis. Safe and healthy! 5. OLED display screen, smart voice reminder for drinking water, TYPE-C Charging Port, 1800MA large capacity battery, smart functions and luxury looking, stable quality	100UNITS

Remarks:

- 1. We are accept sample order.
- 2. MOQ 100 units can customize logo on the product and packing box.
- 3. Payment Term: T/T or Western Union
- 4. Warranty: two years
- 5. Port of Loading: Shenzhen, China.
