

TimeWaver Pro

Your Opportunity in the Information Field

Information for professional users

Time**WAVER** 

Notice

The analysis and harmonization in the Information Field is not intended to cure, treat, mitigate, diagnose or prevent any disease or medical condition. It is intended to give the professional user the option, in a holistic context, to derive helpful information from findings from the Information Field. Each professional user should evaluate, based on their own experience, whether the application is useful in their practice.

The terms used in the databases and modules do not constitute statements concerning their effects. Information from the TimeWaver system should always be critically questioned and, if necessary, verified with further procedures. The TimeWaver system should always be used within the scope of the user's professional practice, license or certification and in accordance with the Instructions for Use and company-provided manual.

Stepping into New Dimensions with TimeWaver

The connections between wellbeing and wellness, the job, the family and life in general are stronger than we might think. Our psyche, our personal experiences and many seemingly invisible factors are having an effect on our lives and do not always make it easy to analyze the causes and harmonize imbalances.

TimeWaver technology analyzes these complex mechanisms in the Information Field* and shows you, based on user experience, what you can do to harmonize hidden imbalances in the Information Field. More than 2,000 professionals worldwide are using TimeWaver Information Field technology and frequency application*, and their number is steadily growing!

* Analysis in the Information Field is designed to search for the information patterns that contribute to the harmonization of the Information Field. For this purpose, a priority is assigned to contents such as descriptive sentences, arranged in lists, by evaluating the data of a physical noise generator. In our users' experience, this priority reflects the relevance for the user. An analysis in the Information Field reflects a combination of factors at the time the analysis is done, including the intention of the user. An analysis at a different time may have a different result due to changes in the environmental variables.

TimeWaver has conducted non-blinded before/after surveys in controlled and randomized groups of participants. These surveys suggest that the participants' wellbeing was higher after the application. We attribute this to the harmonization of the Information Field, in which the life energy, also called chi (or qi) and prana, is meant to be brought back into flow. This has not been confirmed by independent studies.

The Information Field:

Exploring Deep Backgrounds

The so-called Information Field is originally part of a unified field theory, formulated by German physicist **Burkhard Heim** (a student of Werner Heisenberg) in the late 1970s.

Heim had thereby pursued a task at which many renowned physicists, for example Albert Einstein or Stephen Hawking, had so far ultimately failed.

Information Field technology* is based on the theory that the essence and function of the Information Field can be purposefully applied by those who are familiar with it. It is about retrieving all the information about a person's mind and body that is stored in the Information Field of the Earth and the Universe; the positive as well as the negative, the strengths as well as the weaknesses, the normalities as well as the abnormalities.

* Information Field technology is a proprietary technology of TimeWaver. It is based on the theory that the Information Field is the non-material area through which spirit and matter communicate. It reflects what we consider to be the spiritual meaning of life events. The existence of such a field is discussed in scientific literature.

Visualizing Hidden Backgrounds

TimeWaver is designed to analyze the deeper connections and backgrounds of mental and material imbalances and to harmonize them in the Information Field, be it in the field of wellness and wellbeing, sports, business or coaching.

A Wide Range of Applications

Depending on the area of application, we have developed integrative modules that are adapted to the requirements of the different professional groups.

-  Wellbeing
-  Sports, fitness, wellness
-  Mental Relaxation
-  Pets
-  Business
-  Agriculture
-  Building analysis
-  Energetic stresses
-  Coaching
-  Systemic practice

Insights on Every Level

TimeWaver analyzes different levels in the Information Field, which we believe in their entirety make up the human being. Not only the correlations with our being that are found in the Information Field, but also the energetic and informational levels are considered. User experience indicates that these are often closely interconnected and should ideally work together.

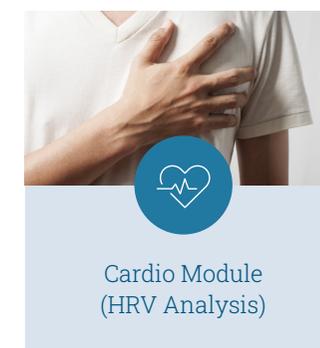

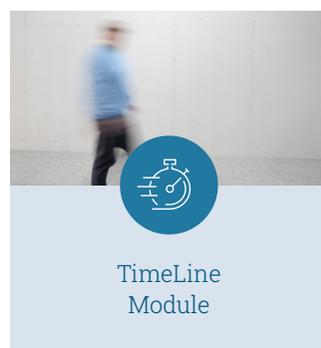

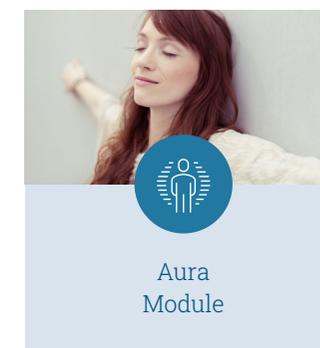

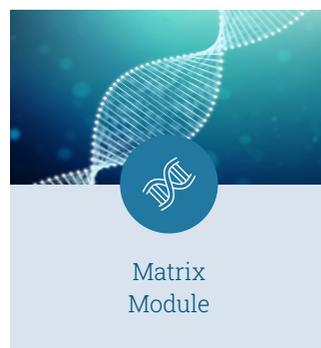

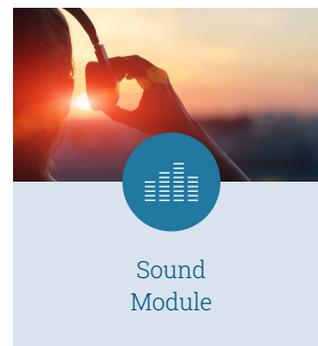

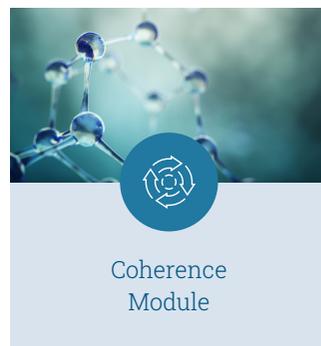

- | | |
|--|---|
|  Imbalances |  Energetic level |
|  Mental-spiritual level |  Frequency level |
|  Systemic level |  Material processes |
|  Psychological level |  Energetic imbalances* |
|  Information level | |

*The content of the TimeWaver databases is based on the practical experience of the experts who created them. They have not been confirmed by independent studies.

TimeWaver Pro Additional Modules*

Depending on the experience and application strategy of its users, the TimeWaver system can be extended by additional modules. These can be quickly and easily integrated into the application portfolio.

*The content of the TimeWaver modules is based on the practical experience of the experts who created them. They have not been confirmed by independent studies.

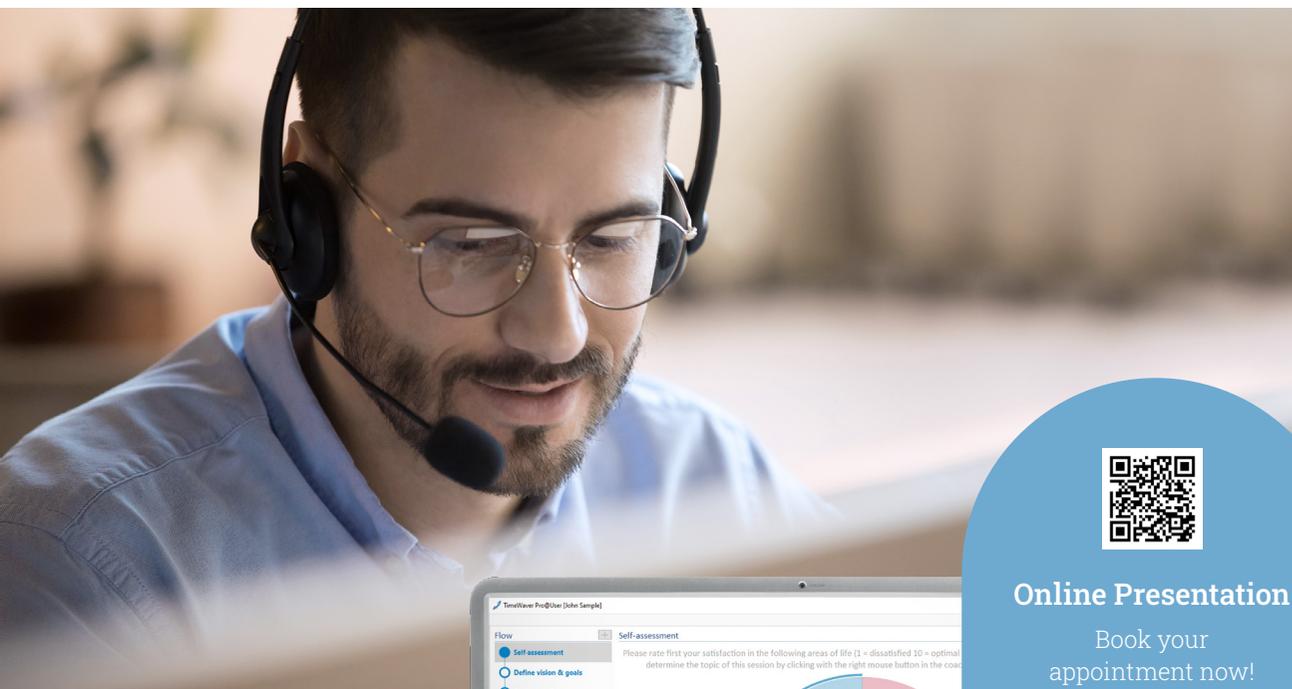

Quantum Physics and Depth Psychology

A Holistic Approach

The idea for TimeWaver Information Field technology has its origins in both quantum physics, where close interactions between mental and material processes can be observed, as well as in depth psychology, especially the concept of the collective unconscious created by the Swiss psychiatrist **C. G. Jung**. These two approaches are interconnected and brought together in the TimeWaver system.

Experience the world of TimeWaver

Seeing Means Understanding

TimeWaver Information Field technology can be understood by interested individuals and new users primarily through their own experience.

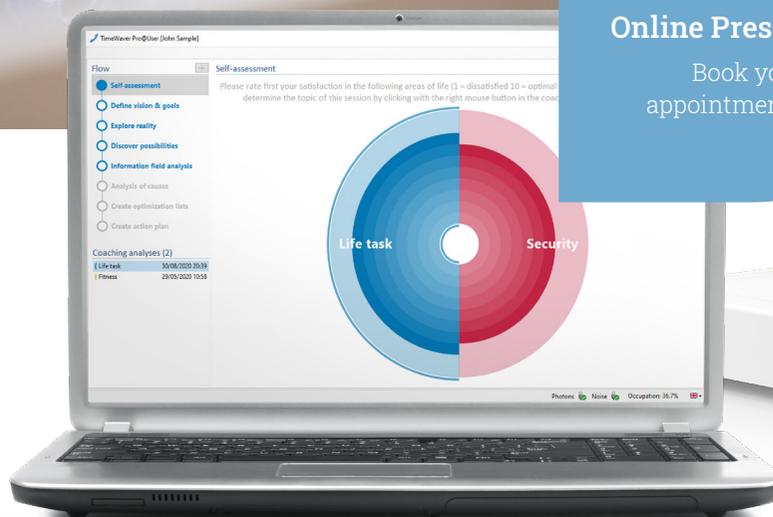

A personal online presentation by an expert user representative will let you understand the TimeWaver systems, learn some interesting facts about their benefits for relationships, career, wellbeing etc. and maybe even experience the potential of their wide range of applications in your life and your business.

In short: the perfect way to enrich your life and/or start your future work with TimeWaver!
